

Flow Orifice

Application

Flow orifice is used to measure flow rate, reduce pressure or to restrict flow. Flow orifice can be used as a stand alone or with PIQCV or QCV zone products.

Model #	Technical Data
FO15010	½" Flow orifice for 1.0 GPM
FO15025	½" Flow orifice for 2.5 GPM
FO15055	½" Flow orifice for 5.5 GPM
FO20100	¾" Flow orifice for 10.0 GPM
