

EAGLE X PRO D5 FAN

The EXP D5 Series Model **D5 Fan** is powered by our patented Corona Discharge Bipolar Ionization technology. This technology allows for continuous production of an equal amount of positive and negative ions. This is a free standing desktop unit that can be powered by any wall outlet or powered USB port.

SPECIFICATIONS:

Ion output (Ions/Sec) D5 – 10B (10¹⁰)
Emitter Points Nickel Plated Needles
Input voltage 12V DC (120V AC adapter included)
Power Consumption Average 30mA @ 12V DC
Power Supply Requirements Over Current Protection 500mA
Operation environment Temp. (14°F) – (158°F), Hum. <70%
Storage environment Temp. (14°F) – (158°F), Hum. <85%
Ozone < 0.005 ppm
Square Feet Up to 500
Power Indicator Switch “on”
Color white
Weight 0.88 Lb
Certifications UL, CSA, CE, IEC, FCC, RoHS 2 compliant
Ion Balance Inherently self-balancing system < ± 30V
Discharge time 1000V – 100V @ < 10 sec acc. Spec

DIMENSIONS:

Dimensions Fan 4.7x2.8x5.7 Inches (LxWxH)

NEUTRALISES AND ELIMINATES:

Viruses
Bacteria
Mold Spores
Fungus
Pollen
Animal Dander

WHICH CAN CAUSE:

Infection
Allergies
Asthma
Flu
Fever
Odor & Mildew

CERTIFICATIONS: UL 867
