

JCI Part #: ST-FZ24-25  
 MFG Part #: TTG200D24J3  
 24' Type 24 Duct Averaging Sensor

**Application**

The **TTG200D24J3** incorporates numerous sensors inside a copper tube. It acts as a single sensor, averaging any temperature change across the sensors

<b>Model</b>		<b>Product Description</b>
TTG200		Sensor Assembly
<b>Code</b>		<b>Style</b>
D		Duct Average (Copper)
<b>Code</b>		<b>Sensor</b>
24		10,000 Ω Type 2 NTC Thermistor
<b>Code</b>		<b>Options</b>
J3		24' Copper (Rigid Duct Average)

**Sensor Specifications**

<b>Operating Temperature Range</b>	-40°F to 221°F -40°C to 105° C
<b>Wiring &amp; Connections</b>	2 or 3 wire screw terminal block
<b>Enclosure</b>	ABS
<b>Sensor Type</b>	10,000Ω Type 2 NTC Thermistor
