

JCI Part #: ST-FZ24-8
MFG Part #: TTG200D24G3
8' Type 24 Duct Averaging Sensor

Application

The **TTG200D24G3** incorporates numerous sensors inside a copper tube. It acts as a single sensor, averaging any temperature change across the sensors

Model		Product Description
TTG200		Sensor Assembly
Code		Style
D		Duct Average (Copper)
Code		Sensor
24		10,000 Ω Type 2 NTC Thermistor
Code		Options
G3		8' Copper (Rigid Duct Average)

Sensor Specifications

Operating Temperature Range	-40°F to 221°F -40°C to 105° C
Wiring & Connections	2 or 3 wire screw terminal block
Enclosure	ABS
Sensor Type	10,000Ω Type 2 NTC Thermistor
