BT300 HVAC Drives

Figure 1. BT300 HVAC Drive without and with Integral Disconnect.

Description

Siemens Industry's BT300 is designed specifically for the demands of today's HVAC systems. Increased focus on energy efficiency of variable flow systems has increased the need for easy-to-use and highly reliable variable frequency drives that reduce the cost of installation and maintenance while maximizing energy savings.

The BT300 comes standard with unique and industryleading features:

- Motor Switch Ride Through during maintenance the motor disconnect switch can be opened and closed without stopping or tripping the drive.
- Thin Film Capacitors eliminate the need to condition or reform the capacitors before applying power.
- View/Monitor nine parameters at one time user selectable, users determine the parameters for their applications.
- Smallest Type 12 footprint on the market lower shipping cost and easy installation.

Designed for HVAC

HVAC demands are unique to other drive applications. The BT300 is singularly focused on the needs of HVAC variable flow systems:

- Built-in wizards for start-up and easy setup of advanced functions
 - PID Start-up Wizard
 - Multi-pump Wizard
 - Fire Mode Wizard
- EMI/RFI filters to meet EMC Immunity IEC 61800-3 first and second environment.
- Integrated DC bus chokes equivalent to 5% impedance.
- BT300 Thin Film Capacitors do not require conditioning. Immediate drive replacement is possible.
- Standard Integration Protocols (APOGEE[®] P1, BACnet, Modbus, LON (optional), Metasys N2)
- Two built-in PID controllers for fast and accurate process control
- Built-in fire mode controller
- Energy Savings with > 97.5% efficiency
- Optimized cooling fans
- UL Type 1 and Type 12 Same Size
- 208 Vac to 240 Vac 1 hp to 125 hp
- 380 Vac to 500 Vac 1.5 hp to 250 hp
- 525 Vac to 600 Vac 3 hp to 200 hp
- Optional integrated drive disconnect
- Advanced I/O expansion capability built into the drive
- One common interface throughout all power ranges
- Intuitive graphical keypad with multilingual display.

Ease of Use

The BT300 drives are easy to use, easy to understand and easy to program. This means installed cost and maintenance savings. Information you want for your specific operation:

- Built-in Help Menu explains each parameter.
- Built-in Maintenance Manual shows possible causes and suggested remedies.
- Nine user-selected values can be defined and monitored at one time – providing you with all the information you need at a glance.
- Embedded Ethernet and RS-485 No additional hardware or cost for Ethernet. Standard HVAC protocols out-of-the-box.
 - APOGEE P1
 - BACnet IP
 - BACnet MS/TP
 - Modbus RTU
 - Modbus TCP
 - Metasys N2

World-class Standard of Quality

Siemens Industry's VFDs are designed to operate in all types of power situations or demanding environments. The BT300's reliability is a result of extensive testing from design to deployment. This testing includes highly accelerated stress testing in extreme temperatures, vibration, and humidity as well as current and voltage variations. Not only will the BT300 withstand most power situations and demanding environmental conditions, it will provide confidence and peace of mind knowing that it will not fail, ensuring a long, trouble-free installation.

Investment Protection

The BT300 supports Siemens Industry's long-standing, industry-leading backward compatibility tradition. The BT300 HVAC Drive is backward compatible to SED2 installations. A migration kit to mount a BT300 Drive in place of an SED2 to support the existing conventional or electronic bypass is an ideal solution to moving your technology forward at the lowest possible cost. The SED2 to BT300 Migration Kits provide you with all the components necessary to mount your BT300 quickly and easily in various locations within your facility.

Environmentally Responsible

The BT300 saves energy, is environmentally safe and RoHS Compliant. All BT300s are constructed with lead-free circuit boards and produce no hazardous waste. They use the latest technologies for insulatedgate bipolar transistors (IGBT) and power capacitors. The thin-film power capacitors do not contain toxic electrolytes; therefore, the BT300 capacitors will not dry out. There is no need to "wake up" or condition the capacitors before installing. Your BT300 is safe to connect even after years of storage.

The BT300 IGBT design results in lower heat losses and lower operating temperatures. It weighs 40% less than competitors' models decreasing the cost of shipping and allowing for easier installation. An average BT300 generates 68% to 125% fewer CO2 emissions than heavier competitors' drives during shipping.

Table 6. Accessories.

| Part Number | Description |
|------------------|--|
| BT300-BATTERY | Battery package (5 pcs) |
| BT300-BATTERY-F | Battery package (5 pcs) for use with s/n 1408xxx and later |
| BT300-BYP-DEMO | VFD and Electronic Bypass Demo with carrying case |
| BT300-CABLE | USB to RS422 interface cable for computer-to-drive connection |
| BT300-CNTLUNIT | Control Module |
| BT300-CNTLUNIT-F | Control Module for use with s/n 1408xxx and later |
| BT300-HHPANEL | Hand held panel kit with magnetic base |
| BT300-KEYPAD | Graphical keypad |
| BT300-OPT-B1-V | Option board with six bi-directional terminals (digital input or digital output) |
| BT300-OPT-B2-V | Option board with one thermistor input and two relay outputs |
| BT300-OPT-B4-V | Option board with one analog input and two analog outputs |
| BT300-OPT-B5-V | Option board with three relay outputs |
| BT300-OPT-B9-V | Option board with five digital inputs and one relay output |
| BT300-OPT-BF-V | Option board with one analog output, one digital output and one relay output |
| BT300-OPT-BH-V | Option board with three analog inputs (for PT100, PT1000, NI 1000, KTY-84) |
| BT300-OPT-C4-V | Option board with integration to LonWorks fieldbus |
| BT300-PNL-N12 | NEMA 12 door keypad mounting kit |

Dimensions

| Frame Size | Height | Width | Depth (without Disconnect) | Depth (with Disconnect) | Weight Ib (kg) |
|---------------|-------------|------------|----------------------------------|-------------------------------|-------------------|
| FS4 | 12.9 (328) | 5.0 (128) | 7.5 (190) | 10.6 (270) | 13.0 (6) |
| FS5 | 16.5 (419) | 5.7 (144) | 8.4 (214) | 11.6 (294) | 22.0 (10) |
| FS6 | 21.9 (557) | 7.7 (195) | 9.0 (229) | 11.9 (302) | 44.0 (20) |
| FS7 | 26.0 (660) | 9.3 (237) | 10.2 (259) | 13.1 (332) | 83.0 (37.5) |
| FS8 | 38.0 (966) | 11.4 (290) | 13.5 (343) | N/A | 145.5 (66) |
| FS9 | 45.3 (1150) | 18.9 (480) | 14.4 (365) | N/A | 238.0 (108) |
